Utility Type: all

Company Name: Dominion Power

Comments: It is long past due for power lines to be burried. It is time for government action. Levy a monthly surcharge and begin burying power lines. My neighborhood never lost power last year with buried power lines. Neighborhoods nearby went without power for over a week. No excuse given our dependency on electricity, telephone and cable. Also burried power lines just look better...drive through downtown Short Pump..Henrico's latest example of planning failure...and look at the ugly power lines along Broad Street. Is this really the best we can do? I don't expect the best from the utilities but I expect nothing less from our elected representatives.
